

Mibelle Biochemistry, a Swiss company, is specialized in the research and development of innovative, high-quality actives for the cosmetic industry. Inspired by Mibelle Biochemistry transforms naturally derived compounds into truly functional cosmetic ingredients.

Mibelle carries an extensive line of plant based skin and hair care ingredients from Switzerland. They are best known for their Plant Stem Cell technology: PhytoCelTec ingredients for anti-aging, but also have much other unique plant based actives giving various properties such as SPF boosting, slimming, and pore refining. With India's growing middle class and increased demand for higher-end cosmetic and personal care products, it is a welcome time for Mibelle to enter this exciting market with a familiar business partner.
