

Galaxy Surfactants to Showcase Cutting-Edge Innovations at HPCI Exhibition 2025

Mumbai, 18 February, 2025: Galaxy Surfactants, one of the leading manufacturers of performance surfactants and specialty care ingredients used in the Home and Personal Care industry, is set to make a remarkable impact at the Home and Personal Care Ingredients (HPCI) Exhibition and Conference. Scheduled for February 18-19 at the Jio World Convention Center, Mumbai.

With a strong emphasis on customer-centricity and sustainability, Galaxy Surfactants will leverage this opportunity to engage with existing clients, establish new partnerships, and introduce groundbreaking formulations that cater to evolving industry needs.

The company will present its latest advancements through an Innovation Zone, a Technical Seminar, and an Interactive Stall Experience. The Innovation Zone will showcase the company's latest cutting-edge solutions, reinforcing its commitment to innovation and industry progress.

The Technical Seminar, led by industry experts, will focus on 'Eco-Conscious Solutions for the Personal and Home Care Industry.' This discussion will explore the development of sustainable, effective, and safe formulations tailored to meet consumer and environmental demands. The Interactive Stall Experience will allow visitors to engage with Galaxy's expertise firsthand through live demonstrations, interactive displays, and technical discussions with industry specialists.

Galaxy Surfactants continues to be a frontrunner in integrating sustainability with product innovation. The company's participation at HPCI will emphasize its commitment to eco-conscious formulations, reliability, and technical excellence.

"We are dedicated to developing ingredients that balance performance with environmental responsibility while providing partners with tailored technical support and advanced formulation expertise. By showcasing initiatives that help brands transition towards greener, more responsible product lines, we aim to set new industry benchmarks in sustainable innovation," said **Mr. Yogesh Kalra, Vice President - Global Business Head, Galaxy Surfactants.**

Galaxy Surfactants invites all attendees to visit their exhibit at HPCI 2025 and experience the latest advancements in sustainable home and personal care ingredients. This participation reaffirms the company's mission to lead the industry towards a more responsible and innovative future.

About Galaxy Surfactants

Incorporated in 1980, Galaxy Surfactants Ltd is leading manufacturers of Performance Surfactants and Specialty Care products with over 210 product grades. These products are

used in consumer-centric Home and Personal care products like hair care, oral care, skin care, cosmetics, soap, shampoo, lotion, detergent, cleaning products etc. It was awarded the ICIS Innovation Award in 2018 for its Green Process for manufacturing Amino Acid Surfactants (Mild Surfactants). It is a market leader in different segments of products ranging from skin care, oral care or hair care to that of sun care, baby care and home care products. It is the preferred suppliers to leading MNCs, Regional and Local FMCG brands.
