

# GMP Policy

Galaxy shall define, establish, maintain and improve the processes and procedures by following cGMP practices for manufacturing active pharma ingredients for cosmetic industry.

Galaxy shall maintain and continually improve the quality of product, process and equipment.

Galaxy shall manufacture consistent quality products under controlled conditions to prevent contamination

Galaxy shall integrate quality at design stage

Galaxy shall continuously train workforce on their competencies in all areas of manufacturing

This policy has the commitment and ownership of each member in Galaxy for its effective implementation.

This policy will be reviewed periodically to ensure its alignment with corporate directions and suitability.
