## Investors Release

### Commenting on the performance Mr. U. Shekhar, Managing Director, Galaxy Surfactants Limited said

“Q2FY20 marked yet another stable quarter for Galaxy Surfactants Ltd. Our volumes grew at 10.2% and PAT at 44.8% primarily due to one-time deferred tax gain of Rs 9.43 Crores and tax savings of Q1 captured in Q2 of Rs 5.85 Crores, adjusted for both PAT grew at 11.8% on YoY basis.

Performance Surfactants logged in a healthy 11.2% YoY growth driven by recovery in the AMET market. Specialty Care Products grew at 8.4% primarily driven by the ROW markets. Overall registering double-digit growth despite the relative slowdown seen across the Home and Personal Care space globally.

Regionally too, it was a steady quarter for us led by the AMET and ROW Markets. AMET grew at 17.1%; led by recovery in the Egypt market which grew at 29.8% on YoY basis. ROW maintained its momentum logging in a 12.7% growth. India grew at 1.3% on YoY basis and QoQ basis logged in a 2.6% growth, thus showing signs of improvement.

Revenue saw a decline primarily due to the declining Fatty Alcohol prices, which is the major raw material for our performance surfactants. The same fell from an average rate of 1,380 USD/MT (Q2FY19) to 1,065 USD/MT in the current quarter (decline of 22.8%).

Overall, the first half has been satisfactory for us. Satisfactory because despite the headwinds, the inherent robustness of our business model ensured we log in a 7.3% volume growth and adjusted PAT growth of 19.7% (adjusted for deferred tax) for the first half of the year. This was driven by both the categories across all regions. Challenges remain, but with a diverse customer base, strong portfolio of products and committed and experienced team, we remain confident of having a better second half.”
